

ACTRD

AIDS COMMITTEE OF TORONTO RESEARCH DAY

Thursday, May 26, 2011

519 Church Street Community Centre

Lunch: 12 noon - 12:45 p.m.

Presentations, discussions and breakout groups: 1 - 6 p.m.

HIV Prevention: Hope or Hype?

ACT Research Day is a half-day event for HIV/AIDS service providers, researchers, people living with HIV/AIDS, and policy-makers to discuss current research and its implications for programs and policy. This event will feature:

- a keynote presentation on a critical assessment of new trends in HIV prevention,
- a panel presentation featuring current research related to HIV prevention among diverse communities,
- breakout groups to discuss the practical implications of the research presented.

Moderator: Darien Taylor, CATIE

ACT Research Day is a free event. Register early - space is limited!

Special Guest Presentation

Hope, Hype and HIV: Framing the Future of Prevention

Marc-André LeBlanc,
HIV prevention advocate
